

16 March 1983

MEMORANDUM FOR: Carol A. Patrick
PFIAB

FROM: Executive Assistant/Executive Director

SUBJECT: Hostile Intelligence Threat

REFERENCE: PFIAB Memorandum dated 22 February 1983

1. Enclosed is a copy of the text used by the DCI in his opening remarks on 11 March 1983 to the Senate Select Committee on Intelligence on the U.S. Government's recent and current activities in the areas of counterintelligence and counter-measures against the hostile intelligence threat. I believe you will find the DCI's comments informative and responsive to your general question in reference about how the functioning of the Intelligence Community could be improved to respond to the hostile intelligence threat.

2. Reference memorandum also asked several questions about how CIA is organized and conducting its activities for counter-intelligence purposes. As I told you by phone, this is a topic which, for reasons of security and clarity, we would prefer to respond to orally rather than in written form.
